

LÜDECKE

Since 1930. The perfect connection.

Since more than 80 years, **LÜDECKE** is the leading partner for developing, engineering and providing coupling systems to connect flexible fluid lines with tools, machines and industrial equipment.

LÜDECKE with its headquarters in Amberg, Bavaria manufactures fittings and couplings for a variety of industrial applications for gaseous and liquid medium. The products are offered via our certified technical partners in more than 120 countries. Or, the products are assembled / integrated by leading machine manufacturers in their own products.

The product portfolio provides a comprehensive standard range of industrial and customized solutions - Engineered and Made in Germany.

The **LÜDECKE** quality management is accredited with ISO 9001-2008 since 1994, which also means that we permanently improve and revise the process of our company. Our quality standards exceed consequently the worldwide given requirements. From July 2015, we are also certified according to the environmental management (ISO 14001-2004) and energy management (ISO 50001-2011).

The most comprehensive range of coupling systems and accessories – MADE IN GERMANY

PNEUMATIC

- Quick Connect Couplings with Standard plug profiles
- Quick Connect Couplings with International/ Other plug profiles
- MODY-Spiral Hoses
- Blow-off Guns and Blow-off Valves
- Pneumatic Fittings

Opti Flow
by LÜDECKE

MOULDING

- Temperature Control Quick Connect Couplings European plug profile
- Temperature Control Quick Connect Couplings International plug profile
- STÄUBLI Temperature Control Quick Connect Couplings
- Material Conveying Quick Connect Couplings
- Screwings and Components

Temp Tec
by LÜDECKE

CONSTRUCTION INDUSTRY

- Claw Couplings
- Complete Screwing Sets, FlatLock-Flat Hose Screwings, Connecting Nipples, Hose Connections
- Mortar Couplings, Mortar Plugs
- Sandblast Couplings
- Hose Clamps
- Throttle Valves

WATER

- WaterProfi Quick Connect Couplings and Spray Nozzles
- WaterProfi Wand Nozzle
- WaterProfi Claw Couplings and Spray Nozzles
- Claw Couplings of brass for drinking water applications
- Claw Couplings of chromium steel for applications with elevated hygienic requirements
- Accessories
- Blister Packaging
- ALBA KRAPP-Hose Reels, Wall Hose Reels and Wall Hose Holders

Water Profi
by LÜDECKE

STAINLESS STEEL

- Quick Connect Couplings
- Temperature Control Quick Connect Couplings
- Claw Couplings
- Chemical and Industrial Kamlok Systems and Fittings
- SnowMaster High-Pressure Quick Couplings
- Water Fittings and ALBA KRAPP-Hose Reels etc.
- Accessories

Snow Master
by LÜDECKE

ACCESSORIES

- Ball Valves
- Hose Clamps, Hose Clips and Crimping Ferrules

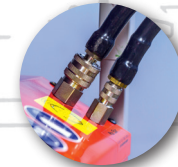

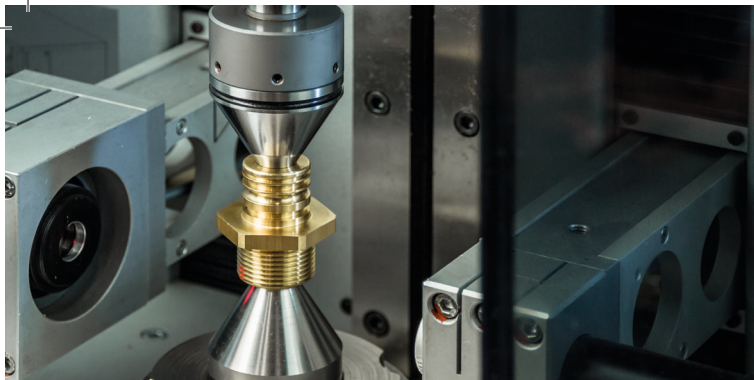

Universally applied

We offer the widest range of high quality connectors for various applications and different media.

Industry:

- Machines & plant Engineering
- Construction Industry
- Mining and tunneling
- Plastic
- Chemistry
- Food industry
- Road construction
- Medicine
- Pharmacy
- Agriculture
- Gardening and landscaping
- Shipbuilding
- Offshore
- Foundries
- Handcraft
- Household
- etc.

LÜDECKE

Since 1930. The perfect connection.

Our values – Our promise

Continuity through Progress and Flexibility

With the construction of the claw couplings for compressed air the engineer, Emil Georg Lüdecke managed a break-through invention in 1930. Today, **LÜDECKE** produces over 20,000 products and serves as competent partner for all sorts of coupling systems in low-pressure range.

Since 1930. Quality through Precision.

Our employees operate with the newest methods in mechanical engineering and thus ensure the highest level of workmanship. From construction through to the CIM production to automatic quality management – we guarantee a maximum of innovation, safety and customer orientation at all times.

Perfect Service through Worldwide Swift and Reliable Execution

To serve our customers reliably, fast and inexpensively with over 20,000 salable products, the most modern, technological production, sales and warehousing software is applied. Thereby, we are constantly developing and investing in all areas, allowing us to consequently maintain the current state of technology.

Our Ethical Values – Responsible Care of Humans and the Environment

We guarantee transparency, security, fairness and long-term nature to all our customers, employees, suppliers, partners and society.

We encourage and support our employees to follow our lead, to work closely on a partnership basis with our customers and take part in social projects. With respect to the environment, we lay great importance on the themes energy efficiency and the careful use of natural resources.

Our Employees – Competent Contact Partners at your Disposal

Additionally to our competent sales team you may consult with our marketing team at all times. We pursue close cooperation for a joint success.

Extensive Support

Our sales team, your competent contact, are here for you and can be reached by telephone from **Monday to Thursday 7:30 AM till 4:30 PM** and **Friday from 7:30 AM till 1:30 PM**.

You may contact us via email or fax at any time. All information is available online at **www.luedecke.com**

Our Sales team offers you:

- technical product advice
- product advice for special productions
- application recommendations
- order and enquiry acceptance
- order and enquiry processing
